

## University of Washington

### Health Informatics and Health Information Management Prerequisite

#### Human Anatomy & Physiology Prerequisite Information

Completing a Human Anatomy & Physiology course or series (with a laboratory) with a 2.00 minimum GPA is required in order to apply to HIHIM. There are Human Anatomy & Physiology courses that are a two-part series, or one quarter classes. If completing the two-part series, you must complete BOTH courses. We recommend completing the two-part series, unless it would delay your application timeline. Classes listed below may have prerequisites and may only be offered in certain quarters.

Contact [hihim@uw.edu](mailto:hihim@uw.edu) if you would like a course not listed below evaluated for prerequisite approval.
